Autograph

Version 2

Quick, Easy and Powerful Embroidery Personalization

Embroidery Personalization

Autograph is an easy and efficient software solution created by Pulse for embroidery personalization. Garments can be personalized in minutes using **Autograph's** wide selection of fonts, thread charts, templates and editing tools.

Autograph is the perfect embroidery personalization solution for retail businesses.

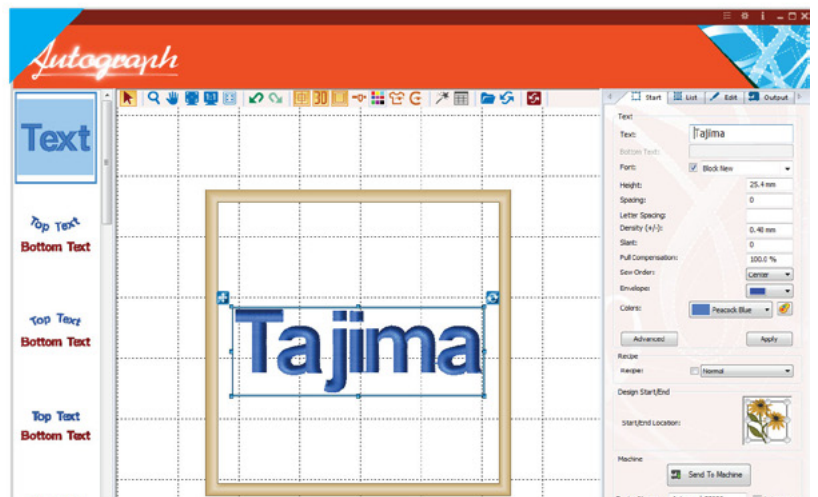

Over 200 Fonts
Create Borders
THREAD CHARTS

Updated Fonts & Thread Charts

Choose from the large selection of fonts available within **Autograph** to fit any style. Easily create borders for your text and alter spacing to get the look you desire. Many popular thread charts are available for easy colour changes and selection. **Autograph** lets you match the colour of your design and text to the threads on your embroidery machine.

Helpful Templates

Use the power of templates to quickly create your own personalized design. Eliminate the burden of digitizing by selecting your preferred design and entering the desired text. Templates help speed up the design process.
